Pest Control Insulation Qualifies for Tax Credit

Mar 6, 2009
PMP Buzz Online eNewsletter

HOMER, Ga. — The American Recovery & Reinvestment Act of 2009, signed into law by President Barack Obama on February 17, contained provisions that enable homeowners to claim a credit of up to \$1,500 for the installation of TAP Pest Control Insulation.

The credit is calculated as 30% of the amount spent, or \$1,500, whichever is less.

"Being recently classified as an Energy Star product was a significant plus for our PMP installers from a marketing perspective, but with the 30% federal tax credit we are seeing unprecedented interest in the TAP system, said Bill Turk, president of Pest Control Insulations Systems

EPA-labeled TAP Pest Control insulation is manufactured in eight plants throughout the United States and is supported by a full-time training and marketing staff dedicated to the success of each pest management professional that adds this profit category to their menu.

Visit www.tapinsulation.com for additional information.
